Another Scientific Wonder! GREAT OUNE FER DYSPEPSIA!

THE TRUE DIGESTIVE FLUID OR. GASTRIC JUICE.

Prepared from RENNET, or the fourth STOM-ACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa. This is NATURE'S OWN REMEDY for an un-healthy Stomach. No art of man can equal its cu-rative powers. It contains no ALCOHOL, BIT-TERS, ACIDS, or NAUSEOUS DRUGS. It is ex-TERS, AC:DS, or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken
by the most feeble patient who cannot cat a water
cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Cast iron case, which forms the back and hoop of of County Courts, will and our Blank Books. the Stone, with a cast tron Eye, or Bush, that is of greater external diameter at the bottom than at the top, which is secured at the back by four bolta, so that every block is in the form of a dovetail, which that every block is in the form of a dovetail, which gives greater strength to a Stone, than any other method which is required in small Mills where the Stone is run with great speed, and becomes dangerous if not strongly made. It also gives weight to a Stone of small diameter that is required, without having it thick or high, that makes it top heavy.

This Mill is a square frace, made of wood or east iron, in the form of a buck, with Bridge tree, Spindle Balance, Rine, Diver, and Regulating Screw, and grisds upon the same principle as a large mill, differing only in the Runring Stone; this being the great weight, enables it to grind nearer the centre a greater quantity of grain and with less power than ny other mill now in use. This mill is portable, and may be attached to steam, water, horse or hand power.

Also, all sizes of French Burr Mill Stones, manu jactured on the same principle.

Joseph H. Burrows, of Cincinnati, is the inventor, for which he obtained Letters Palent in 1849.—
rFor all infringements the purchaser will be held tesponsible for the right of using.

These Mills do not require a Millwright to set them up, and all that is necessary to put them in oprention isto attach a band to the putiey on the spindle, with a prum 'sufficiently large to run the 24 inch Mill 240 revolutions per minute; attachep to horse, steum or water power. By the steady application of twohorse power, the Mill will grind 6 to 8 bushels per hour of good meal, and will grind wheat as well as Corn. The 30 inch Mill, if put to its failest speed, will grind from 10 to 15 bushels per hour.
